PROJECTS

App Prototype - Sentry / UI/UX class project

February 2026

- Worked with team of 4 to design *SENTRY*, an immigrant safety mobile app through a full UX process: conducting user interviews, building personas, iterating from sketches to high-fidelity Figma prototypes, and validating with unmoderated user testing via Lyssna

Digitally Modeling Palladio's Influences and Design Processes / Student Researcher

November 2025-February 2026

- Assisting Professor Kawiaka, Studio Art Department at Dartmouth College
- Used Rhino create 3D solid models of Palladio's churches to digitally compare to Roman Bathhouses

Light Fixture / Design and Fabrication

January 2025-March 2025

- Worked with naturally occurring coral textures to develop a repeating pattern using Adobe Illustrator
- Cut the 2D pattern out of wood using laser cutter, and constructed a 3D light fixture from that (Photos in portfolio)

Wearable Object / Design and Fabrication

January 2025-March 2025

- Worked with naturally occurring coral textures to develop a pattern using the negative space using Adobe Illustrator
- Modeled pattern pieces to perfectly fit my body using a 3D scanning software, overlaid the coral pattern onto the cloth pattern pieces in Illustrator, cut and constructed the tank top using mesh fabric, wood laser cut pieces, and twine to sew it together.
