PROJECTS

SENTRY — Immigrant-Safety Mobile App (UI/UX) *Feb 2026*
- Designed SENTRY with a team of 4 through a full UX process: user interviews, personas, iteration from sketches to high-fidelity Figma prototypes, and validation via unmoderated Lyssna testing

Modeling Palladio's Influences & Design Processes *Nov 2025 – Feb 2026*
Student Researcher — Prof. Kawiaka, Studio Art Department
- Built 3D solid models of Palladio's churches in Rhino to digitally compare them against Roman bathhouses

Light Fixture — Design & Fabrication *Jan – Mar 2025*
- Developed a repeating pattern from coral textures in Illustrator, laser-cut it from wood, and constructed a 3D light fixture (photos in portfolio)

Wearable Object — Design & Fabrication *Jan – Mar 2025*
- Derived a negative-space coral pattern in Illustrator, 3D-scanned my body to size the pieces, then laser-cut and hand-sewed a mesh tank top using wood components and twine
